### Permanent

Verse Group is currently working with a product-based company that is progressing into its second phase. Being ASX listed, they are expecting a massive line of growth in the next year. You will get the chance to work on a product that is progressive, leveraging, and contemporary within artificial intelligence and computer vision.

This is your chance to work with a team that values cultural fit, they will be supportive and will help you hit those career goals. If you are a machine learning enthusiastic with all the technical knowledge down packed – this opportunity will give you a great opportunity to take your career forward.

### YOUR ROLE

- Assist in the build of a new version of a product.
- Mentor other Data Scientists in the team.
- Develop and create machine learning modules/algorithms.
- Engage and communicate with various parts of the business as well as customers.

### WHY APPLY

- Work with a small, knitted team which are extremely collaborative.
- Work on an awesome cutting-edge product.
- Amazing team that will always enjoy a cheeky beer!

### YOU BRING

- Strong experience in productionising models with machine learning.
- Strong skills with python.
- Strong stakeholder engagement.
- Experience in computer vision and artificial intelligence.

Looking to work with the most cutting-edge tech? Looking to work on a product from scratch?
